WHO I AM

Banking Domain Meets **IT Delivery**

I am an **IT Business Analyst** with 4+ years of deep banking operations experience at **SBI Cards & Payment Services** and **Federal Operations and Services Ltd.** — now transitioning into technology delivery with a powerful dual advantage.

My banking background gives me something most IT BAs lack: **genuine domain expertise**. I understand how CASA accounts, lending workflows, payment systems (UPI, IMPS, NEFT, RTGS), KYC/AML, and reconciliation processes actually work — not just in theory, but from years of hands-on operations.

Combined with strong technical skills in **Power BI, SQL, Python, and ML modelling**, I bridge the gap between business stakeholders and development teams — translating complex banking needs into clear, structured IT requirements.

I am actively targeting **IT BA, Systems Analyst, and Functional**

Consultant roles across India and the Gulf (UAE, KSA, Qatar).

ANALYTICS & BI

- Power BI
- DAX
- Power Query
- Advanced Excel
- SQL (MySQL)

IT BUSINESS ANALYSIS

- BRD / FRD
- User Stories
- Process Mapping
- GAP Analysis
- UAT
- Stakeholder Mgmt

PYTHON & ML

- Python
- Pandas
- Scikit-learn
- XGBoost
- SMOTE
- Matplotlib

BFSI DOMAIN

- CASA
- Lending
- UPI / IMPS
- KYC / AML
- Reconciliation
- RBI Guidelines

WHAT I'VE BUILT

Project Showcase

PROJECT 01

Banking Fraud Detection & Anomaly System

End-to-end ML pipeline on 28,000+ real banking transaction records. Detects fraud patterns, payment anomalies, and reconciliation gaps using ensemble ML models.

Python **SQL** **Random Forest** **XGBoost** **SMOTE** **Power BI**

Outcome: 92% fraud detection accuracy. Interactive Power BI risk dashboards delivered.

[Kaggle →](#)

PROJECT 02

Retail Banking KPI Dashboard & Process Improvement

Complete BA engagement — AS-IS/TO-BE process mapping, BRD/FRD documentation, and Power BI KPI dashboard for CASA, Lending, and Payments operations.

Power BI **Advanced Excel** **BRD/FRD** **Process Mapping** **UAT**

Outcome: 20% cycle time reduction. Adopted as primary management dashboard across 3 business units.

[GitHub →](#)

PROJECT 03

Payment Analytics & Reconciliation Intelligence

Multi-channel payment analysis (UPI/IMPS/NEFT/card) with automated

reconciliation model. Hierarchical Power BI views from BU level to individual transaction.

SQL Advanced Excel Power BI Python Chargeback Analysis

Outcome: 20% error reduction. 95% audit-readiness. Reconciliation gaps identified & resolved.

CAREER JOURNEY

Work Experience

DEC 2025 – PRESENT

Senior IT Business Analyst

Federal Operations and Services Ltd. · Kolkata, India

- ▶ Elicited and documented BRDs/FRDs from business stakeholders; translated banking workflows into structured IT requirements — delivering 20% STP cycle time improvement
- ▶ Built Power BI KPI dashboards (TAT, FTR, AHT) as analytics bridge between business and IT teams
- ▶ Managed end-to-end UAT: test scenario design, defect tracking, zero-defect go-lives

AUG 2021 – NOV 2024

Business Analyst — Payments & Digital Lending

SBI Cards & Payment Services Ltd. · Bhubaneswar, India

- ▶ Analysed 28,000+ payment records using SQL — detected anomalies reducing error rates by 20%
- ▶ Produced BRD-aligned SOPs, functional specs, and traceability matrices for IT change initiatives
- ▶ Delivered Power BI dashboards tracking billing KPIs, chargeback trends; achieved 95% client retention

2020 – 2021

Mechanical & HSE Engineer

Freezeco Pvt. Ltd. & Triveni Earthmovers · India

- ▶ Managed HVAC/plant systems and HSE compliance; early exposure to systems thinking and process documentation
